

We have recently completed work on two cottages and these are available for allocation. Applications are welcomed for these or for future vacancies.

All cottages have gas central heating, benefit from double glazed windows and have a double-glazed front porch. All cottages are on a personal alarm system which operates 24 x 7 – this also monitors safety alarms detecting fire and carbon monoxide.

No 18 has recently been refurbished and comprises a living room.

A refitted kitchen with an electric oven and hob

A single bedroom

View from the bedroom window

A walk in level access shower and toilet

Rear hall showing the back door

No 22 has been redecorated and comprises a kitchen/living room

The kitchen

Living Room

A single bedroom
